

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Mountain apple juice & Apple mint

Product line: CUVÉE

Sales description: beverage with apple juice (99,2%) & apple mint extract (0,8%)

Juice composition of our ripe, hand-picked mountain apples and mint extract.
Guaranteed natural and unadulterated.

Mountain apple juice & apple mint: invigorating freshness, delicately spicy, wonderfully cooling, full aroma

Our full-bodied, aromatic mountain apple juice is the protagonist of this refreshing cuvée. The apple mint, milder in taste than peppermint, contributes its unique aroma and minty freshness for a distinct and long finish. This unique and charming mix is the perfect refresher on hot days.

Serving temperature: 8 - 10°C

Especially recommended as an aperitif with finger food, summer salads, light starters.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
