

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Mountain apple juice & Peach

Product line: CUVÉE

Sales description: apple juice (70%) & peach purée (30%)

Juice composition of our ripe, hand-picked mountain apples and peach.
Guaranteed natural and unadulterated.

Mountain apple juice & peach: ripe, full aroma, slight sweetness, velvety mouthfeel

The sweet yellow juice of the peaches and the acidic juice of the late summer mountain apples complement each other perfectly. This lively cuvée has a wonderful flowery fragrance and a multi-layered bouquet of fruity aromas. The peach juice defines the texture: the velvety mouthfeel, the fullness on the palate and lingering aftertaste.

Serving temperature: 8 - 10°C

Especially recommended with chocolate mousse, cakes, strudel, hard cheeses

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
