

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Mountain apple juice & Carrot

Product line: CUVÉE

Sales description: apple juice (85%) & carrot juice (15%)

Juice composition of our ripe, hand-picked mountain apples and carrot.
Guaranteed natural and unadulterated.

Mountain apple juice & carrot: earthy, nutty, sweet with a fine acidity, medium-long finish

There are worlds between them: our apples grow on the trees, needing the sun and the wind; the carrots grow under the earth, where it is dark and moist. Together they form a sublime, bright orange cuvée in perfectly balanced proportions: the apple's fine acidity complements the earthy flavour of the carrots, whilst the sweet notes from both keep the contrasts in balance and ensure great drinking pleasure.

Serving temperature: 8 - 10°C

Especially recommended with Asian dishes, flavoursome fish dishes, spicy risottos, semi-hard cheeses.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
