

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

## Ananasrenette

**Product line: GRAND CRU**

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe, hand-picked mountain apples. Guaranteed authentic and natural.

**Mountain apple juice:** greenish yellow, spicy on the palate, and highly reminiscent of pineapple with notes of citrus fruits and currants.

Fresh and fruity - and a little bit frivolous. That is how an apple of this name should be. And it is true! Where does this apple in the middle of South Tyrol come from? The trail leads back to the 19th century in Germany, Belgium and Holland. At that time, the Pineapple Pippin became „everybody’s darling“ due to its excellent taste. On the sunny Ritten, in the healthy air and in the right soil, and, above all, with the benefit of our many years of experience, the Pineapple Pippin is now growing again. Greenish yellow, spicy on the palate, and highly reminiscent of pineapple with notes of citrus fruits and currants, this historical apple variety produces a noble mountain apple juice for special moments.

**Serving temperature:** 8 - 10°C

**Especially recommended** as an aperitif and with asparagus, risotto and cooked or grilled meats.

**Our recommendation:** we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
