

With apples grown at **almost 1000 metres above sea-level on the Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural gourmet mountain apple juices**: both **single-variety juices** and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Rouge

Product line: GOURMET

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe, hand-picked mountain apples. Guaranteed authentic and natural.

Mountain apple juice: cherry red, fruity bouquet, elegant, with superb freshness, long finish

Rouge is not only the variety, red is also the colour of this mountain apple juice with its bouquet of red currant, cherry and rhubarb. With a slight astringency and pronounced acidity on the palate, this juice presents with a strong taste, wonderful freshness and a lingering aftertaste. An extraordinary, invigorating juice.

The Apple: Not only is the peel red but also the flesh - and the juice! The red colouring is due to the high anthocyanin content, which has detoxifying effects and makes the apple a veritable resistance fighter in the body. The trees' blossoms, leaves and bark are also red.

Serving temperature: 8 - 10°C

Especially recommended as an aperitif, with hors d'oeuvres of fish and meat, Asian dishes.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
