

With apples grown at **almost 1000 metres above sea-level on the Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Wintercalville

Product line: **GRAND CRU**

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe, hand-picked mountain apples. Guaranteed authentic and natural.

Mountain apple juice: Golden yellow, spicy and aromatic with characteristic scent of white peach, juicy yellow plums and honey.

The very name conjures up a journey to a cold land - a journey the Winter Calville really made when word of this excellent dessert apple reached the court of the Tzar and it was delivered from South Tyrol, individually wrapped in paper. The Wintercalville has a long pedigree, reaching right back to the Middle Ages. Probably a native of Normandy, for a long time the Wintercalville was widely cultivated and in great demand, even in the highest circles. Wintercalville trees are sensitive; they like nutritious, healthy and warm soils of the type we can offer on the Ritten.

Serving temperature: 8 - 10°C

Especially recommended as an aperitif and and with vegetarian dishes, pasta dishes, lamb and goat's cheese

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
