

With apples grown at **almost 1000 metres above sea-level on the Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural gourmet mountain apple juices**: both **single-variety juices** and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Sonnenglanz

Product line: GOURMET

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe hand-picked mountain apples. Guaranteed authentic and natural.

Mountain apple juice: intense straw yellow, delicate citrus and pine aromas, full-bodied and balanced, refreshing and fruity

The brightness of the sun - that's how the name of this apple variety is translated. A name like a promise! And the juice lives up to it. It's just as radiant yellow as the apple itself, a sun greeting straight from the South Tyrolean sky. With subtle citrus notes and a hint of pine, the juice elegantly balances the interplay of fruitiness and refreshing acidity. It's full-bodied and well-balanced.

The Apple: The Sonnenglanz apple variety is a cross between Pinova and Topaz. The apples are medium-sized and ,sunshine yellow' in colour. The flesh is firm and crisp and the flavour is aromatic and fresh.

Serving temperature: 8 - 10°C

Especially recommended with light starters, fresh salads, fish and white, mild cheese.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
