

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Pinova

Product line: GOURMET

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe hand-picked mountain apples. Guaranteed authentic and natural.

Mountain apple juice: bright straw yellow, fruity, floral aromas, full-flavoured, long finish

The Pinova mountain apple juice is light straw yellow in colour. It has an intensive bouquet revealing notes of ripe white peaches and grapes with floral nuances and a hint of honey. The juice is full-flavoured and velvety on the palate and offers a fine balance of fruit and acidity. A refreshing juice with a pleasant and lingering aftertaste.

The Apple: Pinova is a cross between Golden Delicious and Clivia. Pinova apples come in various sizes, with a regular shape, firm flesh and long stalk. Colouration is bright vermillion over a yellow background. Reliably good taste.

Serving temperature: 8 - 10°C

Especially recommended with delicately spiced pasta dishes, roasted light meats, mature semi-hard cheeses.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
