

With apples grown at **almost 1000 metres** above sea-level on the **Ritten in South Tyrol** plus our strict quality criteria, we produce **all-natural** gourmet **mountain apple juices**: both **single-variety** juices and **cuvées** of apple juice with perfect partners or fascinating aroma extracts - and as a very special highlight our limited-edition **Grand Cru** juices made from almost forgotten apple varieties. **Kohl mountain apple juices** are an ideal **thirst-quencher** at any time of day or night and a **fine and elegant alternative** to wine with your meal.

Jonagold

Product line: GOURMET

100% pure mountain apple juice from single variety apples - naturally cloudy

Pressed from our ripe hand-picked mountain apples. Guaranteed authentic and natural.

Moutain apple juice: bright straw yellow, ripe pear aroma, sweet, soft and elegant, silky finish

The mountain apple juice made with the Jonagold variety comes in a light, almost transparent straw yellow. It has an aroma of ripe pears with hints of nut. An elegant sweetness floods the palate, where the juice lies soft and luscious. It has a sturdy structure, strong presence and long silky aftertaste.

The Apple: Jonagold is a cross between Jonathan and Golden Delicious. It is the ultimate elegant apple in looks and taste. The apples have a tender, yellowish flesh and are very juicy, with moderate to high sugar content and acidity.

Serving temperature: 8 - 10°C

Especially recommended with hors d'oeuvres with cream cheese, flavoursome risottos, roasts, cakes, patisseries.

Our recommendation: we recommend the use of stemware for our mountain apple juices so that, as with wine, the aromas can develop fully.

Kohl mountain apple juices are **carefully pasteurised** for long life but contain **no preservatives or added sugar**.

Nor do they contain any animal-derived ingredients or genetically modified products. Kohl mountain apple juices carry the **V-label** of the European Vegetarian Union.

Our mountain apple juices do not contain gluten. They are digestible for people with coeliac disease.

Store unopened bottles in a **cool and dark place**. Once opened, keep in a refrigerator and drink within 6 days.
